

Grower Range of Supplements

| | Grower 4 | Grower 5 | Grower 6 | Grower 8 | UltraMeal |
|------------------|----------|----------|----------|----------|-----------|
| Energy ME | 10 Mj/kg | 10 Mj/kg | 10 Mj/kg | 10 Mj/kg | 10 Mj/kg |
| Dry Matter (DM) | 70% | 70% | 70% | 70% | 72% |
| Total Protein | 16% | 18% | 22% | 26% | 19.20% |
| True Protein | 2.80% | 2.80% | 2.80% | 2.80% | 6.00% |
| NPN Protein | 13.20% | 15.20% | 19.20% | 23.20% | 13.20% |
| Urea | 2.50% | 3% | 4% | 5% | 3% |
| Phosphorus | 0.25% | 0.25% | 0.25% | 0.25% | 0.30% |
| Potassium | 3.10% | 3.10% | 3.10% | 3.10% | 3.10% |
| Calcium | 0.55% | 0.55% | 0.55% | 0.55% | 0.55% |
| Salt | 1.15% | 1.15% | 1.15% | 1.15% | 1.15% |
| Sulphur | 1.20% | 1.20% | 1.20% | 1.20% | 1.20% |
| Zinc | 175mg/kg | 175mg/kg | 175mg/kg | 175mg/kg | 175mg/kg |
| Copper | 50mg/kg | 50mg/kg | 50mg/kg | 50mg/kg | 50mg/kg |
| Cobalt | 6.5mg/kg | 6.5mg/kg | 6.5mg/kg | 6.5mg/kg | 6.5mg/kg |
| Iodine | 2.5mg/kg | 2.5mg/kg | 2.5mg/kg | 2.5mg/kg | 2.5mg/kg |
| Selenium | 1mg/kg | 1mg/kg | 1mg/kg | 1mg/kg | 1mg/kg |
| Manganese | 160mg/kg | 160mg/kg | 160mg/kg | 160mg/kg | 160mg/kg |
| Flavopospholipol | Optional | Optional | Optional | Optional | Optional |

Flavopospholipol can be included at 10 ppm but **restricted** when used with PCAS certified herd. Grower products are suitable for growing cattle or breeders on phosphorus sufficient land. In phosphorus deficient areas it is recommended to use the Breeder Range of supplements. UltraMeal contains protein meal and be made as custom mixes.

UltraliX Grower supplements are molasses based supplements delivering a balance of energy, protein, phosphorus and essential trace minerals. UltraliX supplements are designed to aid with the intake of roughage which may increase cattle weight gain, reduce weight loss when grazing dry forage, improve fertility and overall profitability. Molasses and urea supplement can increase fibre (grass) intake by up to 30%. For the best results cattle need free access to roughage and water. Reduced access to forage and water will reduce production performance. UltraliX supplements are rain safe and designed to be fed adlib in open troughs. Grower 4 is the sweetest product in the range with Grower 8 being the sourest.

Weaners should be fed 0.5 to 1kg/day

Steers and Heifers should be feed 0.5 to 1.2kg/day

Breeders should be fed 0.8 to 1.5kg/day

Supplementing rate will depend on the amount and quality of roughage available to your livestock to graze and your desired outcome. Generally, the more you supplement or the earlier you start in the season the better the results should be. It is recommended not to exceed 50hd per 500 lt trough or 75 heads per 750lt trough.

UltraliX supplements contain Urea and should only be fed at the recommended rate. Make sure all non-targeted animals like horse cannot get access to these supplements. UltraliX supplements should not be feed to starving stock or stock that have been deprived from water or roughage.
